

Pharmacy AI Terms of Service

By accessing and using Pharmacy AI's application, software, tools, data, documentation, website, or other online products (collectively "Services"), you expressly agree that you have read, understood, and agreed to be bound by the following terms and conditions (the "Terms") as well as all applicable laws and regulations. If you do not accept the terms and conditions of these Terms of Service, you will not access, browse, or otherwise use the Service.

You also agree that you are 18 years or older and legally able to enter into a binding contract. If you are under the age of 18 or the age of legal majority where you live, you may only access or use our Services under the supervision of a parent or legal guardian who agrees to be bound by this Agreement. As a parent or legal guardian of a user under the age of 18 or the age of legal majority, you agree to be fully responsible for the acts or omissions of such a user in connection with our Services. If you are accessing or using our Services on behalf of another person or entity, you represent that you are authorized to accept this Agreement on that person or entity's behalf and that the person or entity agrees to be responsible to us if you or the other person or entity violates this Agreement.

By approving the terms of use contract, you acknowledge that you are aware that all outputs created from Pharmacy AI are made by artificial intelligence technology and that Pharmacy AI is not a verified doctor, pharmacy, or health professional service. All users agree to use the app solely at their own risk and are advised to consult with a licensed healthcare provider for any medical advice or treatment.

These Terms and any policies incorporated in these Terms contain the entire agreement between you and Pharmacy AI regarding access to or use of the Services and, other than any Service-specific terms of use or any applicable Enterprise agreements, supersede any prior or contemporaneous agreements, communications, or understandings between you and Pharmacy AI on that subject.

No agency, partnership, joint venture, or other relationship is intended or created by your access to or use of the Services.

You may not assign or delegate any rights or obligations under these Terms and any purported assignment or delegation by you shall be null and void. We may assign these Terms in connection with a merger, acquisition, or sale of all or substantially all of our assets, or to any affiliate as part of a corporate reorganization.
